**FROM THE PRESIDENT'S DESK**

*The Christmas Story - As told by Matthew*

*This is how the birth of Jesus Christ came about: His mother Mary was pledged to be married to Joseph, but before they came together, she was found to be with child through the Holy Spirit. Because Joseph her husband was a righteous man and did not want to expose her to public disgrace, he had in mind to divorce her quietly.*

*But after he had considered this, an angel of the Lord appeared to him in a dream and said, "Joseph son of David, do not be afraid to take Mary home as your wife, because what is conceived in her is from the Holy Spirit. She will give birth to a son, and you are to give him the name Jesus, because he will save his people from their sins."*

*All this took place to fulfill what the Lord had said through the prophet: "The virgin will be with child and will give birth to a son, and they will call him Immanuel"--which means, "God with us."*

*When Joseph woke up, he did what the angel of the Lord had commanded him and took Mary home as his wife. But he had no union with her until she gave birth to a son. And he gave him the name Jesus.*

*After Jesus was born in Bethlehem in Judea, during the time of King Herod, Magi from the east came to Jerusalem and asked, "Where is the one who has been born king of the Jews? We saw his star in the east and have come to worship him."*

*When King Herod heard this he was disturbed, and all Jerusalem with him. When he had called together all the people's chief priests and teachers of the law, he asked them where the Christ was to be born. "In Bethlehem in Judea," they replied, "for this is what the prophet has written: "'But you, Bethlehem, in the land of Judah, are by no means least among the rulers of Judah; for out of you will come a ruler who will be the shepherd of my people Israel.'" Then Herod called the Magi secretly and found out from them the exact time the star had appeared. He sent them to Bethlehem and said, "Go and make a careful search for the child. As soon as you find him, report to me, so that I too may go and worship him."*

*After they had heard the king, they went on their way, and the star they had seen in the east went ahead of them until it stopped over the place where the child was. When they saw the star, they were overjoyed.*

*On coming to the house, they saw the child with his mother Mary, and they bowed down and worshiped him. Then they opened their treasures and presented him with gifts of gold and of incense and of myrrh. And having been warned in a dream not to go back to Herod, they returned to their country by another route.*

*When they had gone, an angel of the Lord appeared to Joseph in a dream. "Get up," he said, "take the child and his mother and escape to Egypt. Stay there until I tell you, for Herod is going to search for the child to kill him."*

*So he got up, took the child and his mother during the night and left for Egypt, where he stayed until the death of Herod. And so was fulfilled what the Lord had said through the*

prophet: "Out of Egypt I called my son."

When Herod realized that he had been outwitted by the Magi, he was furious, and he gave orders to kill all the boys in Bethlehem and its vicinity who were two years old and under, in accordance with the time he had learned from the Magi. Then what was said through the prophet Jeremiah was fulfilled: "A voice is heard in Ramah, weeping and great mourning, Rachel weeping for her children and refusing to be comforted, because they are no more."

After Herod died, an angel of the Lord appeared in a dream to Joseph in Egypt and said, "Get up, take the child and his mother and go to the land of Israel, for those who were trying to take the child's life are dead."

So he got up, took the child and his mother and went to the land of Israel. But when he heard that Archelaus was reigning in Judea in place of his father Herod, he was afraid to go there. Having been warned in a dream, he withdrew to the district of Galilee, and he went and lived in a town called Nazareth. So was fulfilled what was said through the prophets: "He will be called a Nazarene."

--Matthew 1:18 - 2:23 New International Version

- Maintain MCA.
- Need Officers Manual.
- Mark Harwood feels like Melvin since Melvin is not in attendance. Melvin is enjoying Florida.

Meeting adjourned at 8:11pm.

I am sure we've all seen many remarkable nature photographs over the years but the photo of a nesting Falcon on page 7 shared by member Jerry Bush is perhaps the most remarkable nature shot that I've ever seen. I hope you enjoy it as much as I do. Nature is truly breath-taking!

I am confident most of our older members will recognize this species of falcon captured in this shot.

## A New Vision For Mustang

The 2000 Ford SVT Mustang Cobra R. Third generation of the Cobra R, this all-out race-bred street car promises to be the fastest, best-handling Mustang ever produced in its 35-year history. Ford SVT's engineers, led by Chief Engineer and visionary John Coletti, have partnered with world class performance parts manufacturers to make the new Cobra R the ultimate race-ready enthusiast Mustang. The very latest in performance technology is on hand here with all components designed to work together for the hottest set up ever.

Ford will produce only 300 of these Cobra Rs; but you can easily transform your Mustang into an aggressive, Cobra R package by simply adding such Ford performance partners' products as: "The Ripper" Shifter by B&M; Mono-Tube Gas Pressurized Shock Absorbers from Bilstein; a Borla Dual Exhaust System (tips exit both sides); Brembo Performance Brake Systems with larger brake rotors and calipers; Pro-Kit Springs from Eibach, "The Suspension Company"; and Interior Ergonomic Sport Seats by Recaro.

Share the Vision. Bring your Mustang up to Cobra R specs with the performance package of the ultimate Mustang.

## WINDOWS VS FORD

**For all of us who feel only the deepest love and affection for the way computers have enhanced our lives, read on.**

At a recent computer expo. (COMDEX), Bill Gates reportedly compared the computer industry with the auto industry and stated, "If Ford had kept up with technology like the computer industry has, we would all be driving \$25 cars that got 1,000 miles to the gallon."

In response to Bill's comments, Ford issued a press release stating:

If Ford had developed technology like Microsoft, we would all be driving cars with the following characteristics (and I just love this part):

1. For no reason whatsoever, your car would crash.....twice a day
2. Every time they repainted the lines in the road, you would have to buy a new car.
3. Occasionally your car would die on the freeway for no reason. You would have to pull to the side of the road, close all of the windows, shut off the car, restart it, and reopen the windows before you could continue. For some reason you would simply accept this.
4. Occasionally, executing a maneuver such as a left turn would cause your car to shut down and refuse to restart, in which case you would have to reinstall the engine.
5. Macintosh would make a car that was powered by the sun, was reliable, five times as fast and twice as easy to drive - but would run on only five percent of the roads.
6. The oil, water temperature, and alternator warning lights would all be replaced by a single "This Car Has Performed An Illegal Operation" warning light.
7. The airbag system would ask, "Are you sure?" before deploying.
8. Occasionally, for no reason whatsoever, your car would lock you out and refuse to let you in until you simultaneously lifted the door handle, turned the key and grabbed hold of the radio antenna.
9. Every time a new car was introduced car buyers would have to learn how to drive all over again because none of the controls would operate in the same manner as the old car.
10. You'd have to press the "Start" button to turn the engine off.

PS - I'd like to add that when all else fails, you could call "customer service" in some foreign country and be instructed in some foreign language how to fix your car yourself! Please share this with your friends who love - but sometimes hate - their computer.
